Situation

I discussed this with General Picher (reference a) and he agrees that, in consonance with previous JCS position, (reference b), the JCS paper should not be made available to the British or French. With General Picher's concurrence, I discussed the matter with Mr. Shuff, ISA, and made the following requests:

1. That he adhere to the previous position that Secretary McElroy had taken in his forwarding memo (reference c) that the Chiefs' paper (reference b) should remain in U. S. hands only; and
2. That he contact the State Department to insure that they did not release the paper to the British.
